

The 2nd CU-af Seminar (Jan 14, 1994)

Keynote Lecture :

“Water Pollution in Thailand : Present Situations, Remedial Measures and Future Trend”

by Prof. Dr. Thongchai Panswad, Faculty of Engineering, Chulalongkorn University

Research Titles and Presenters were :

1.) **“Determination of Total Fluorine in the Atmosphere via Cyclic Fast Neutron Activation Technique”**

by Assoc. Prof. Dr. Tatcha Sumitra

2.) **“Hydrodesulfurization of Thiophene Using Zeolite-Type Catalyst”**

by Prof. Dr. Wiwut Tanthapanichakoon

3.) **“Development of Water Absorbent Polymer from Tapioca Flour”**

by Prof. Dr. Suda Kiatkamjornwong

4.) **“Effects of Nitrogen Compounds on Hydrogenation of Thiophene”**

by Assist. Prof. Dr. Sasithorn Boon-Long

5.) **“Mathematical of Wave and Current Around River Estuary”**

by Assist. Prof. Dr. Sucharit Koontanakulvong and Assist. Prof. Dr. Sutat Weesakul
