The 13th CU-af Seminar (July 26, 2005)

Keynote Lecture:

"Contribution of Health Sciences Research to Health Development"
by Chitr Sithi-amorn, M.D., M.Sc., Ph.D., Director of Institute of Health Research and Dean of the College of Public Health

Research Titles and Presenters are:

1.) "Measurement of Urinary Growth Factor Messenger RNAs: A Non-invasive Monitoring in Lupus Nephritis"
by Assist. Prof. Yingyos Avihingsanon, M.D.

2.) "The Roles of Initial Plasma Venom Levels and Coagulation Laboratories in Predicting Clinical Courses of Green Pit Viper Bites"
by Assist. Prof. Ponlapat Rojauckarip, M.D.

3.) "Cow’s Milk Specific IgG and IgG Subclasses Measurement: Role for Diagnosis of Cow’s Milk Allergy"
by Lecturer Pantip Chatrathana, M.D.

4.) "Screening and Characterization of Proapoptotic Low-molecular Weight Compounds as Potential Anti-tumor Agents from Microbial Secondary Metabolites and Medicinal Plant Extracts"
by Assist. Prof. Tanapat Palaga

5.) "Catalytic Pyrolysis of Polyethylene and Polypropylene Waste Films Into Valuable Upstream Petrochemical Products"
by Assist. Prof. Sirirat Jitkanthana

6.) "A Well-defined Proton Transfer Route in Polymer Matrix: An Enhancing Proton Migration System for Polymer Electrolyte Membrane used in Fuel Cell"
by Assoc. Prof. Suwabun Chirachanchai
